Subject: Hess Corporation- Tubular Bells Project- Mississippi Canyon Block 724- Cooling Water Intake Permit Requirements

Mr. Chen,

Hess Corporation would like to schedule a meeting with you in February to present our proposal for complying with the Cooling Water Intake requirements under NPDES Permit GMG 290000 as it will apply to the Hess Operated "A" Platform in Mississippi Canyon Block 724 (OCS-G 22897; "Tubular Bells" Project).

We would propose a meeting on February 11th or 12th at your office, starting at 10:00 a.m.

We have been discussing our plans with other operators, i.e. Anadarko to leverage their recent proposal for their "Lucius" Project, and our proposed compliance plans for our facility will be very similar to their plan.

Please advise which of the two dates will work best for you, or please propose a date that will be acceptable.

Thank you very much, and please contact me via email or at the phone number below if you have any questions.

Keith
